

# Regional Development conference 2011

Investing in your future

EUROPEAN UNION  
European Regional  
Development Fund

**Smart, sustainable and inclusive growth  
– how can Renewable Energy and Clean Tech  
contribute to the Europe2020 Strategy**

## **The Regional Development Conference 2011, RDC 2011 June 14-15 in Östersund, Sweden.**

During this second Regional Development Conference speakers with cutting edge knowledge will submit their views on where we stand, what we should aim at and, not least, views on how to create synergies between efforts to promote smart and sustainable growth on the one hand and the development of renewable energy sources and clean technology for the benefit of all regions on the other hand!

*Several examples from regions all over the EU, and outside, where new ideas and innovations have transferred into businesses and jobs, will be highlighted.*

*In addition, the conference will serve as a meeting place between small and medium sized enterprises, entrepreneurs, academia and public authorities at different levels.*

*An exhibition where companies are able to show their latest products or services will be open during the entire conference.*

*Please, consult our web site for more information. [www.rdc2011.se](http://www.rdc2011.se)*

*There will be interpretation to and from English, French, German, Spanish and Polish.*

**The Midsweden Region is looking forward to welcoming you to the RDC 2011!**
